Glan-Taylor

GT10	10mm	£290	Optical coatings – single layer on input, output and side exit faces, add £40 per face coated. Single polished side exit face, add £75. Double polished side exit face, add £120. Mounted in black anodised cylinder, add £45. Cylinder sizes: 12-25mm Ø, 15, 18, 20-35mm long. 25-50mm Ø, 35mm long. 30-50mm Ø, 45mm long.
GT12	12mm	£365	
GT15	15mm	£525	
GT18	18mm	£730	
GT20	20mm	£950	
GT25	25mm	£1,240	
GT30	30mm	£1,760	

Brewster Cut Glan-Taylor Low Loss Polarizer

GTB10	10mm	£830	This polarizer uses a Brewster cut input and output face and an internal interface which is almost at Brewster's angle for exceptionally low insertion loss.
GTB12	12mm	£1030	

Orthogonal Output Glan-Taylor in Mount

This polariser has two side exit windows with outputs orthogonal to main beam axis and

is mounted in an anodised aluminium alloy housing as standard.

GLBS10	9mm clear aperture	£775	Including single layer anti-reflection coating.
GLBS12	11mm clear aperture	£1,240

Low Voltage Modulators

EM200A	£910	EM400A	£1,190	Prices include anti-reflection coatings on windows. UV operation requires fused silica windows at extra cost.
EM200K	£1095	EM400K	£1,310	
EM200L	£1150	EM400L	£1,550	

Transverse Field Lithium Niobate Pockels Cells for Q-Switching

LNQ	Crystal 9 x 9 x 25mm, coated for 1064nm	£830	Un-Mounted
LNQM	Crystal 9 x 9 x 25mm, coated for 1064nm	£1050	Mounted

Longitudinal Field KD*P Pockels Cells for Q-Switching

EM508	8mm Aperture	£835	Prices include AR coatings on windows and fluorocarbon filling. Dry cells; +£200@1064 Prices assume one HV BNC 50Ω connector. Add £25 per additional connector (4 max)
EM510	10mm Aperture	£925	
EM512	12mm Aperture	£1060	
EM515	15mm Aperture	£1,850	
EM520	20mm Aperture	£3,025	

Compact Longitudinal Field KD*P Pockels Cells for OEM Q-Switching

EM508M	8mm Aperture	£875	Removable pin or M2.5 stud contacts may be specified. Price assumes fluorocarbon filling. Dry cells available at additional cost (e.g. +£200 at 1064nm)
EM510M	10mm Aperture	£1000	
EM512M	12mm Aperture	£1,165	
EM520M	20mm Aperture	£3,025	
EM510C	10mm Aperture	£935	Dry, 1047-1080nm standard

Double Crystal 8mm Pockels Cells for Lower Voltage Q-switching

EM508/2	Two crystal version of EM508	£1,885
EM508M/2	Two crystal version of EM508M	£1,885
EM510M/2	Two crystal version of EM510M	£2,125

Special Pockels Cells for Pulse Slicing and Pulse Picking

UPC069	6mm aperture ultra fast (180ps) Pockels cell. Fluid filled or dry, un-coated crystals at 532/1064nm.	£2,200
UPC069/2	Double crystal version of UPC069 for half voltage operation. Fluid filled.	£2,760
EM505	5mm aperture 3 electrode Pockels cell ideal for use with two avalanche drivers etc. Fluid filled	£1,520

100kHz RTP Q-Switch System (standard AR coating for 1064nm e.g.)

3mm Aperture RTP Q-switch	Price On Application
4mm Aperture RTP Q-switch	Price On Application
6mm Aperture RTP Q-switch	Price On Application
100kHz 2kV Q-switch driver	Price On Application

Phase Modulators

PM10-/50MHz - Single frequency	£1,760 without driver
PM50-/100MHz - Single frequency	£1,540 without driver
PM2-500MHz – Wide band	£2,750 without driver

Custom Pockels cells and modulators for special applications are also available. Please enquire.

Electro-Optic Deflectors (lithium niobate or lithium tantalate for general applications)

ED1	1mm Aperture	£1,375
ED2	2mm Aperture	£1,675
ED3	3mm Aperture	£2,035

High Laser Damage Electro-Optic Deflector for Q-switching applications

ED1H	1mm Aperture	£2,640
